

Are you a mover or a maker?

2018 PERFORMANCE PROGRAM AUDITIONS

SOUTH
AUSTRALIAN
CIRCUS
CENTRE
THE HOME OF CIRKIDZ

Make new friends,
have fun, train travel & perform!

Saturday April 7th between 4.30pm - 6pm
SA Circus Centre @ 27 Fifth St, Bowden

AGES: 6 - 17 • COST: \$20 per work shop audition*

Participants will be expertly led through a two hour workshop that will give insight into our technical training and creative development process.

To register please call 8346 5735 or email circus@cirkidz.org.au for an application form and return by April 6th. Places are limited.

www.cirkidz.org.au

*Please note that the Performance Program, Specialist classes and Cirkidz circus school all incur semester fees payable by lump sum or monthly direct debit.

Be the future of Australian circus

The Performance Program provides the best equipment, environment and mentors available to enable and empower students to become professional national and international touring circus artists. Our vision is to mentor young artists who are versatile, collaborative, autonomous and highly skilled.

Our Performance Program artists and graduates are pushing the boundaries of contemporary physical theatre and circus all over the world and having an amazing time doing it. Our Performance Program has multiple entry points, depending on experience and aptitude.

We are proud to be offering the opportunity to participate in a "Workshop Audition" for the Performance Program on **Saturday April 7th** with Artistic Director Joshua Hoare and Trainer Clo Mudrik.

Movers: Stripped back acrobatic and circus technique without a performance context. These classes are suitable for gymnasts or other movers who are just beginning their creative development. These classes will be taught by strong technical teachers from circus, gymnastics and complimentary movement forms.

Makers: Apply physical skill in creative contexts. This could include building acts, small group devising or personal research with a focus on building small ensemble works for public performance.
